Forest District

The greatest advantage of our hunting grounds, covering almost 4,000 hectares, is the diversification of the landscape: forests, water and meadows facilitate the abundance of game animals. Red deer, fallow deer, roe deer, wild boar - hunt all these species here. We invite you to the rut, which provides a lot of emotions to all those who appreciate the original beauty of nature. Medal trophies are obtained in our district every year. Our advantage is the professional hunting management of the entire region: plots and convenient hunting equipment. The offer includes a masterful organization of hunting, professional and friendly service. Easy access (A2 motorway and S3 expressway) helps you reach the forests along the Oder. Our offer is flexible and tailored for individual clients as well as organized groups. The area is small, intimate, but therefore unique, located by a picturesque river, near the best Polish vineyards.
